GOWTHAM

AI / ML Engineer

gowtham120205@gmail.com | Thirumanamedu, Trichy, Tamil Nadu
GitHub: GowthamAI-ENGR | LinkedIn: gowtham-ravi | Portfolio

PROFESSIONAL SUMMARY

M.Sc. Artificial Intelligence student with hands-on experience building machine learning solutions for healthcare and agriculture using Python, TensorFlow, PyTorch, and scikit-learn, along with full-stack development experience on live client projects. Seeking an AI/ML Engineer role to build intelligent, data-driven solutions.

EXPERIENCE

Full Stack Web Developer Intern | HodoLabs *2026 – Present*

- Develop and maintain full-stack web applications across front-end and back-end components on live client projects.
- Work with databases and CRUD operations, API integration, debugging, testing, and deployment.

Internship Maintenance Portal | Bharathidasan University *May 2026*

Python, Flask, MySQL, XAMPP, HTML, CSS, JavaScript

- Built a web-based internship management system to organize student records, mentor assignments, and internship activities.
- Implemented role-based access with separate dashboards for administrators, mentors, and students.

PROJECTS

Maternal Health Risk Prediction System

Machine Learning | Healthcare | Classification

- Built an ML system using classification algorithms on health parameters to predict pregnancy risk levels and support early medical intervention.

Crop Recommendation System

Machine Learning | Agriculture | Data Science

- Built an ML system using Random Forest and Decision Tree algorithms to recommend suitable crops from soil nutrients, temperature, humidity, pH, and rainfall.

Laptop and Desktop Management System | UG Project

PHP, MySQL, HTML, CSS, JavaScript

- Developed a web application for browsing and booking laptops and desktops, backed by a centralized MySQL database for product and customer data.

TECHNICAL SKILLS

Languages: Python, R, SQL, JavaScript, PHP
ML / DL: TensorFlow, PyTorch, scikit-learn, Neural Networks, Deep Learning
Data & Analysis: Exploratory Data Analysis (EDA), Statistical Modelling with R
Web & Databases: Flask, HTML, CSS, MySQL, REST API Integration
Tools: Jupyter Notebook, Google Colab, Git, XAMPP

EDUCATION

M.Sc. Artificial Intelligence *Expected 2027*

St. Joseph's College (Autonomous), Trichy | Current CGPA: 7.77

B.Sc. Computer Science *2022 – 2025*

Srimad Andavan Arts & Science College | CGPA: 8.18

CERTIFICATIONS

Introduction to Neural Networks and Learning (ISRO) • AI/ML for Geodata Analysis • Introduction to Deep Learning • Mastering Statistics using R • Basics of Exploratory Data Analysis • Great Learning, NPTEL
